Ocean Shipping Container Availability Report

A weekly publication of the Transportation Services Division, AMS
United States Department of Agriculture

www.ams.usda.gov/oscar

Weekly Container Overview

- The participating ocean carriers have updated the semiannual average weekly throughput data for each reported location. These data help readers understand the aggregate flow of containers that have moved through the 18 select locations by the participating carriers over the previous 6 months. These data are only updated every 6 months. See the updated map on page 3 as well as the updated tables on each location page. Overall, the data were lower than the previous 6 months reported; this is likely due to fewer participating carriers .
- Overall, the Ports of Los Angeles/Long Beach, New York, Norfolk, and Savannah are expected to have the most available containers among the reported port locations over the next 3 weeks. Container availability estimates in New York fell this week compared with the previous week. Availability estimates in Norfolk, Los Angeles/ Long Beach, and Savannah are up over the previous week. Availability in Norfolk rose significantly this week particularly for refrigerated equipment; however, reefer availability is expected to fall over the next 3 weeks.
- Among the reported inland locations, Chicago, Dallas, and Memphis are expected to have the most containers available over the next 3 weeks. Chicago experienced a significant increase this week to overtake Dallas in terms of overall availability for the inland locations. Availability is estimated to increase each week for all container types except for refrigerated containers in Chicago and Memphis.
- More than half of the reported locations experienced increases in availability from the previous week, including significant increases in Houston, Minneapolis, and Seattle. Most other locations saw small decreases with the exception of Oakland that fell significantly from the previous week. As imports start to slow this time of year, container availability numbers will probably experience volatile changes such as these from week to week.

December 12, 2012

Understanding this Report P.2

National Overview Maps P. 3-5

Container Availability by Location:

Charleston, SC	P.6
Chicago, IL	P.7
Cincinnati, OH	P.8

Understanding this Report

The weekly Ocean Shipping Container Availability Report (OCSAR) provides a snapshot of container availability for westbound transpacific trade lanes at select intermodal locations around the country. The data presented in this report are gathered from the 8 member carriers in the Westbound Transpacific Stabilization Agreement (WTSA). The WTSA carriers include COSCO, Evergreen, Hanjin Shipping, Hapag Lloyd, Yang Ming Transport Corporation, OOCL, K Line, and Hyundai Merchant Marine.

- The data are estimates of container availability per week by the participating carriers. The carriers determine container availability by comparing current supplies at each of the 18 intermodal locations with the demand for these containers based on up-to-date bookings or reservation information in the westbound transpacific trade lane.
- Each week, participating carriers report the estimated number of containers available for the current week (W1) as well as estimates for the subsequent 2 weeks (W2 and W3).
- Maps on pages 3–5 offer a national overview of weekly container availability, as well as an average of availability over the past 6 months. The weekly national data are derived from the sum of the individual carrier responses at each intermodal location.
- Individual carrier responses are presented by location on pages 6–23 and have been sorted from largest to smallest. To maintain carrier confidentiality, specific carrier identification is not provided.
- Carrier responses showing negative numbers, such as -29, should be interpreted as meaning that 29 containers are needed by shippers but the carrier is not able to supply them. A positive number, such as 64, would mean 64 containers are available that are not demanded. An indication of 0 means the carriers have the exact amount of containers needed based on current supply and demand estimates.
- In addition to the weekly container availability data, the participating carriers provide average weekly throughput data for the past 6 months. These data help readers understand the aggregate flow of containers that have moved through the 18 select locations by the 8 participating carriers over the previous 6 months. These data will only be updated every 6 months.
- Availability levels are subject to change, and may be affected by delays in return of equipment to carriers by shippers or consignees, and by free time restrictions imposed by railroads. Due to the dynamic nature of the container industry, carriers cannot be held responsible for the level of availability at the time of inquiry.
- Data presented in the report do not imply availability of chassis.
- Container availability estimates represent availability for all export cargo, not just agricultural products.
- USDA collects these data on a voluntary basis and cannot be held responsible for the status of container availability when a reader makes inquiry with an ocean carrier. USDA relies on the participating ocean carriers to ensure the data is accurate.
- Terminology:

20ft Dry Container (20ft): A standard shipping container that is 20 feet long.

40ft Dry Container (40ft): A standard shipping container that is 40 feet long.

40ft High-Cube (HC): A shipping container which is 40 feet long and 9 feet, 6 inches tall (1 foot taller than a standard 40ft dry container).

40ft reefer: A refrigerated shipping container which is 40 feet long.

20ft reefer: A refrigerated shipping container which is 20 feet long.

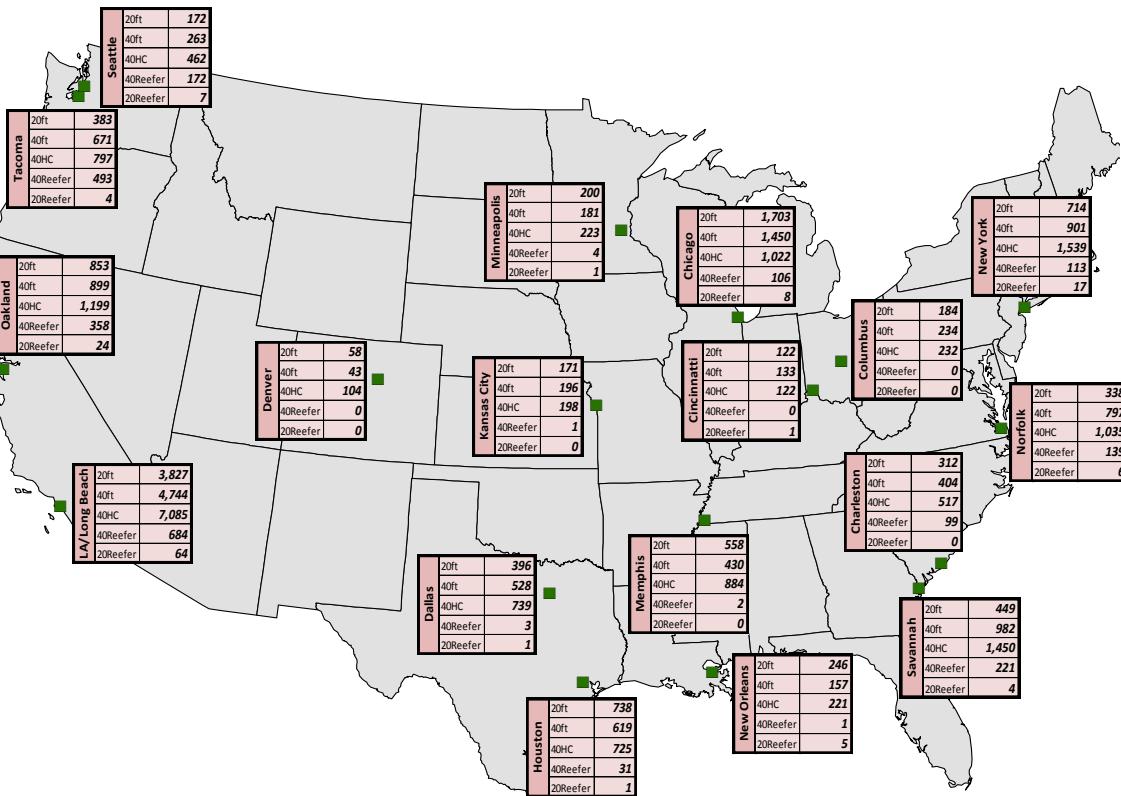

Chassis: A wheeled frame to which a shipping container can be locked for storage or movement. (Plural chassis)

Six-Month Snapshot of Average Weekly Throughput			
June 2012-November 2012			
Container Types	Average Total Weekly Throughput*	Range of Individual Carrier Responses	
20ft	383	1...300	
40ft	671	15...500	
40ft High Cubes	797	76...600	
40ft Refrigerated	493	0...203	
20ft Refrigerated	4	0...4	

*Data reflect the sum of the individual carriers' average weekly throughput over a 6-month timeframe

The U.S. Department of Agriculture (USDA) prohibits discrimination in all of its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex (including gender identity and expression), marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
